6. Upper Mississippi River American Heritage River Program
<http://www.epa.gov/rivers/98rivers/uppermiss.html>

Fifty-seven communities and over 250 supporting organizations worked together to achieve designation of the Upper Mississippi River as an American Heritage River. Started in 1997 by President Clinton, the American Heritage Rivers initiative is an innovative response to help river communities that seek federal assistance and other resources to meet some tough challenges. Without any new regulations on private property owners, state, local and tribal governments, the American Heritage Rivers initiative is about making more efficient and effective use of existing federal resources, cutting red-tape, and lending a helping hand.

D. Regional Citizen Groups (this is an abbreviated list; many more can be found through these organizations' websites)

1. Upper Mississippi Basin Stakeholder Network

<http://www.umbsn.org>

The Upper Mississippi Basin Stakeholder Network (UMBSN) is a St. Mary's University of Minnesota project, supported in part, through a grant from the McKnight Foundation. The UMBSN is an information sharing process designed to connect farm, citizen action, and environmental organizations, watershed management alliances, county land and water conservation districts, landowners, Tribes, and Federal and State Agencies. The UMBSN website contains an extensive list of river stakeholders.
